

Limited Warranty Statement by Green Solution Inc. (GSI)

1 Purpose

The primary purpose of this Warranty is to clearly define the matters related to the warranty policy of Products.

2 Warranty Condition

2.1. Warranty Period

The Performance Warranty for the Products is valid for 10 years. The installation date must not be later than 9 months from the Products' date of manufacture.

2.2. Limitation of Warranty scope

GSI's liability under this Warranty shall be limited to replacement, repair, refund, and compensation. Replaced or repaired Products shall be warranted for the remainder of the original Warranty Period. In any event, the replacement shall not justify the renewal of the Warranty Period.

Exclusively for the Australian market: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

2.3. Exclusion of Warranty

Damage to the Products resulting from any of the following activities is NOT covered by this Limited Warranty:

- Misuse, alteration, improper transportation/storage/installation
- External influences include unusual physical or electrical stress (power failure surges, inrush current, lightning, flood, fire, accidental breakage, etc.)
- Use of an incompatible inverter, rectifier, or PCS

The limited warranties do not cover costs associated with product installation, removal, testing, packaging, transportation, or reinstallation; other costs associated with obtaining warranty service; or costs, lost revenues or lost profits associated with the performance or nonperformance of defective products.

Warranty claims will not apply if the model number or the serial number of the product is altered, removed, or made illegible.

2.4 Limitation of Warranty Scope

Any modules repaired or replaced by GSI under a warranty claim shall be covered by the original warranties and original term of the first product purchased under said claim. The term shall not be prolonged or reset from the date of sale to the original purchase. Any replaced parts or products become the property of GSI.

GSI shall have no responsibility or liability whatsoever for damage or injury to persons or property, or other loss or injury resulting from any cause whatsoever arising out of or related to the product, including, without limitation, any defects in the module, or from use or installation. Under no circumstances shall GSI be liable for incidental, consequential, special damages, however, caused. Loss of use, loss of profits, loss of production, loss of revenues are therefore specifically but without limitation excluded.

GSI's aggregate liability, if any, in damages or otherwise, shall not exceed the purchase price paid to Jiawei by the customer, for the unit of product or service furnished or to be furnished, as the case may be, which gave rise to the warranty claim.

3 Performance Warranty

GSI warrants and represents that the Subject of the Warranty retains at least 60% of Nominal Energy for a standard 10 year warranty (or 50% of Nominal Energy for an optional extended 15 year warranty), whichever comes first when the battery system is operated under normal use followed by specification and manual provided by GSI.

The term "Nominal Energy" herein means the initially rated capacity of the Subject of the Warranty as printed on the label of the Subject of the Warranty. The precondition of the valid Performance Warranty shall be as follows:

1. The ambient temperature during the operation of the Subject of the Warranty must not fall below -10 °C or exceed 50 °C
2. The energy throughput for 10 years is less than the values in the table below:

Product Name	Nominal Energy	Usable Energy	Energy Throughput
HOME E10	10.24 kWh	9.7 kWh	33 MWh

3. The energy throughput for 15 years optional extended warranty is less than the values in the table below:

Product Name	Nominal Energy	Usable Energy	Energy Throughput
HOME E10	10.24 kWh	9.7 kWh	41 MWh

Capacity measurement condition:

- Ambient temperature: 25~30 °C

- Initial battery temperature from BMS: 25~30 °C
- Charging/discharging method:
 - Charge: (0.2C, 43.2 A) CC/CV (Constant voltage: 58.2 V, Cut-off current 0.05C, 4.3 A)
 - Discharge: (0.2C, 43.2 A) CC (Cut-off voltage: 40.0 V)
 - Current: (0.2C 43.2 A)
- Current and voltage measurement shall be made at battery DC side

4 Out of Warranty Policy

Products damage that is not caused by the seller, GSI shall provide charged service. All the expenses of such as material cost, labor cost, warehouse cost, transportation cost, customs duties, analysis cost, management cost, corporate profits, disposal expense, etc, will be billed to the buyer.

5 Force Majeure

Under no circumstances shall GSI be liable for acts of God, power failures, lightning, fire, flood, severe weather, hailstorms, insect and pest infestation, and other events, howsoever caused, reasonably beyond GSI’s control, including, without limitations, any technological or physical event or condition which is not reasonably known or understood at the time of sale.

6 Claim Payment Policy

Claims under this Warranty must be made by notifying the Authorized Reseller from whom the Product was purchased.

For a Warranty Claim to be processed, it must include the following items;

- (1) Proof of the original purchase
- (2) Description and evidence of the alleged defect(s)
- (3) Product serial number, label

7 Applicable Law

The warranty is subject to the law of Australian Consumer Law.
